

Are you curious about what it is like to work for a startup? Are you looking for an internship where you create assets that are used to help drive revenue? If so, One Spot is interested in giving you an opportunity to use your skills to build your resume while providing an environment that helps you learn more about what is really needed to help grow a company on the rise.

One Spot is an innovative SAAS company out of Plymouth, MN working to disrupt the commercial property management space with their technology portfolio. We officially launched our product suite in January 2018 and are experiencing significant growth. Currently, we are looking for a Graphic/Web design intern to help optimize our web presence, and provide graphic design expertise in creating marketing materials.

For this role, you will have the opportunity to.....

- Review and evaluate existing website designs and look for ways to improve them.
- Take project requirements and create templates for landing pages, micro-sites, product pages, marketing campaigns.
- Work with team members to design marketing collateral.
- Writing and editing on existing website content for SEO optimization.
- Design web advertisements, banner ads, and corporate communications that reflect the One Spot Brand
- Perform other duties, as needed.

The ideal candidate will have:

- Coursework toward earning a Bachelor's degree in Marketing, Graphic Design, Computer Science, Web Design, or other related majors.
- Previous experience in graphic or digital design.
- Ability to work autonomously and without supervision.
- Working knowledge of the Microsoft suite of products (Word, Excel, Outlook, etc)
- Advanced knowledge of PowerPoint
